

As followers of our Lord, Jesus Christ, we are required to do good works. Sometimes we are doing good and we don't realize it. Other times we may need to get busy and notice that other people could use a little help.

Service happens at home within the family, in one's faith community the church and within the community at large. Below are some opportunities to serve in our parish. The only "rules"? It has to be time volunteered (not paid) & no double dipping (if you do it for another group, it doesn't count for us). There are no required number of hours. As you are recording your service, reflect on whether you can be donating more of your time & talents to others in need.

After you complete a service project, give me 2 sentences on how the recipients reacted to your service & how you felt during the service.
